

Recycling is something we are passionate about at Carr Lodge. It is a way of extending the usefulness of something that has already fulfilled its initial purpose. A new product can be made out of it, and it will be useful again! Every time we recycle, we save our environment a little more. We cut fewer trees, use less water and energy. Your effort can go a long way in saving our environment. We all know about recycling, but knowing about it and living it is not the same thing. What we need to do is make it a part of our lives.

This year at Carr Lodge, we are celebrating Global Recycling Day on the 18th March. At school, we will spend the afternoon learning all about how we can save the planet by making simple changes and will be taking part in some wonderful activities.

In addition to this day, we are going to have a **school competition** to see which class can collect the most **plastic** bottle tops. The winning class will then get the opportunity to turn these bottle tops into a beautiful art masterpiece that will sit proud in the Academy entrance for all to see. **The final date for this collection will be 22nd March-** to enable the winners time in the final week of term for their project.

So what are you waiting for? Get collecting everyone! Bring your bottle **plastic** tops to school and add to your class box. Thank you.
